A. Comment on the labs and/or lab instructor in this course B. Do you have any comments regarding the questions on the questionnaire itself? Please comment on any aspect of the lab and/or instructor's teaching that you think important and which was not covered in the questionnaire.

=====
A. - Lab instructor was awesome. Very smart and made the lab fun to attend. - Needs to better communication between lectures and tutorial. - Found labs to useless unless we needed help with assignments. - Beauty Lab Instructor!

A. Very helpfully, and would let us know ahead of time what we were doing in class.

A. The lab instructor is nice, and he is patient to answer the students' questions.

A. More lab time. Longer lab. Well Prepared Material.

A. Great instructor.
B. Thank you.

A. - Good work - Keep subject matter as interesting as possible - Fun to be around - Good instructor.

A. The lab instructor is a funny guy that can teach us with a lot of fun. But sometimes I can't understand.
B. No.

A. Labs are prepared however it does not show a strong correlation between the lab materials and lecture material. Some of the work done in the labs were not strongly related to exams or assignments.
B. /

A. Great personalities. Need Work on Presentation skills on presenting useful information.

A. As usual Michael made an incredibly boring course more fun with his jokes and upbeat attitude. Good job! Although it could've been better if he and Josh were more coordinated.

A. I liked Michael's teaching style, very clear and concise. At the beginning the material did not reflect what was taught in class. It got better as time went on but this was my biggest problem. Would of been more useful if we did question similar to exams/assignments. Michael was good at keeping things interesting and presented his material well. Liked the handouts prepared.

A. Should coordinate with instructor of course better to teach us things we are learning in class and that will be on the Exam.

A. Labs were not well coordinated but that is not the fault of Michael. There needs to be better communication from professor to the lab instructor about what material is covered and will be tested.

A. - Instructor was AWESOME but lack of communication between lab instructor and lecture instructor were poor which made this lab much less valuable than it could have been.

B. n/a

A. There needs to be more interaction between the lab and the class. They need to be more in sync with what materials are being taught at what times. The lab instructor however was very personable and I enjoyed listening to his lectures. I think that he tried his best to give us something out of nothing.

A. Overall it was great, He used a Really good examples that helped me remember the material and concept.

A. - Good lab! - Could coordinate better with Joshua to correspond lecture material directly to that weeks lab. - You Rock!
