A. Comment on the labs and/or lab instructor in this course B. Do you have any comments regarding the questions on the questionnaire itself? Please comment on any aspect of the lab and/or instructor's teaching that you think important and which was not covered in the questionnaire.

=====
A. Well organized study material.

A. Michael is a great instructor, although his accent sometimes tries to be an obstacle yet he goes extra mile to clarify himself more than expected.

A. - helped to understand course material better - practice problem reflected what were expected to learn from the course which was helpful for preparing for quizzes.

A. Excellent. :)

A. - Great handouts - Nice to have assignments/practice problems printed out.
- Nice that problems/questions were done in class!

A. Michael is a great instructor. He is enthusiastic and explains concepts very well. It is obvious that he cares a great deal about the success of his students.

A. Was helpful in learning material. Going over the end of chapter review books was a key element in helping to learn the material.

A. - Great prof. Explained what we needed to know and used great examples!

A. On the lab questions, if they were sent out before the lab we could have the opportunity to practise them beforehand. :) B. /

A. Nice guy with good examples that prepared me well for quizzes.
B. Made boring material entertaining.

A. The labs were very helpful in understanding the material and preparing for the exams.

B. I really enjoyed the class!!!

A. Best economics teacher I've ever had. Actually wants his students to do well.

A. Michael is friendly and helpful.

A. Well taught class. I learnt more here than Econ. 3010.

A. The labs were extremely valuable in preparing for the tests and understanding lecture topics.

B. Not enough cowbell

A. Michael is the most committed professor I have ever met in terms of

attitude and helpfulness towards students. He genuinely cares about his students and makes himself available outside normal class hours all the time. Best Professor Ever!

A. Good teacher.

B. Don't let us buy that expensive book. The book is useless.

A. Michael is a really good instructor with responsibility and humour person. I am really enjoy this class.

A. Great teacher. Tries to make class fun but makes it easy to learn also.

A. I did not like the lab time being used for lectures.

A. Labs were conducted in a very good manner, that helped students to learn better about the course.

A. Since this was not really a lab I guess it doesn't apply. - good handouts and practice problems - great presentations for material

A. Good Job

B.

A. Very energeetic. Made course material bearable, despite its boring subject matter.

A. Lab was at a dumb time. Having the Lab before we have the class doesn't make sense.

Otherwise it was good.

A. He was an awesome instructor. Was really easy to follow in class and gave lots of material to practice for quizzes and exams. The practice problem sets were very helpful. Also I liked having quizzes to make me keep up with the material and have further practice for the midterms and finals. Super good guy and would most definately take a class with him again.

A. M. Lanyi made this class really interesting and make me study. I really like the Quizzes because I automatically make me prepare for midterms.

B. He is a Great Lecturer. I like his teaching pattern.

A. The lab section should be used to talk about theory, but the bulk of the classtime should be used to answer problems. Learning by doing problems is so much easier and straightforward.

A. Keep the humour, was a good touch to the course.

A. Don't change a thing. The way you conducted the lab was excellent. The best I have ever had at University.

A. The course was not difficult so the lab was not a necessity; I would recommend having smaller lab classes so it would be very helpful.

A. Best ECON teacher I've had.

A. - lab is definately needed in this course and was a great asset to me - I suggest that practice problems be sent out prior to labs (of course this can only be done if the lab is not on the same day as the lecture). For

future classes / highly recommend that Lab and Lecture days are different.

A. It is good that the Lab instructor is the same person as the class, and the explanation in the Lab can really help me to solve the questions in the assignment, Quiz, and the midterm.

B. /

A. Good labs but should be geared towards questions similar to that of the assignments.

Better prep for midterm and final.

A. Given the time of this lab, I think the way you dealt with it was good. The question handouts you gave were really helpful.

A. I attended lab twice all year, but seemed good.

A. The Practice Problem Sets are a great help. I really like them. This is my second time taking the course and it has been a million times better than the first time. GREAT JOB. THANKS.

A. Continue with the quiz and Practice problems. They are very helpful. GOOD JOB!
