A. Comment on the labs and/or lab instructor in this course B. Do you have any
comments regarding the questions on the questionnaire
```

itself? Please comment on any aspect of the lab and/or instructor's teaching that you think important and which was not covered in the questionnaire.
===

A. Good teacher and had some good jokes.

A. Michael is a great professor, and I would have rather had him as my lecture prof as well as lab prof. He is a great help, that knows alot about economics.

A. Thank you Michael, you made economics a bit less boring and funnier! :) It would be good to have a longer lab - maybe 2 hour??? to cover more examples.

A. Lanyi tries far too hard to entertain students and instead of teaching, often gives us a second rate comedy show. The labs can be helpful, but could be much more effective. He is often quite unprofessional and difficult to follow.

A. - very helpful with course material - engaged students

A. The lab really helped me get a better mark on the midterms and keep up the good work !!)

A. Very good Lab teacher, knows his stuff, knows how to keep the class interested. Sometimes he drags on, but it barely happens.

A. Very entertaining in the way of speaking about the course which made it much more interesting.

A. - Mr. Lanyi was very helpful. Knowing that he chose the questions individually showed me how dedicated he was. I wouldn't have passed this class if there wasn't this lab.

A. - Good job, a lot more helpful than the actual class. You should give Pascal a few notes on how to teach because all he does is read right off the slides.

A. - I learnt more in your 50 minute labs in a week than I did in 3 hours of lecture. The questions were very helpful in preparing for tests and the extra questions on the internet are greatly appreciated. Overall, this lab was very beneficial.

A. It was very helpful, the questions were right from exams and helped me very much in preparation for exams.

A. Really Good! I never came prepared to these labs because questions were sent out Thursday night. You should teach lecture instead of Pascal.

A. Awesome teacher. I wished he had been teaching the class this semester instead of only the Lab.

A. - Without this lab I would be lost. Michael made everything make sense, he even made economics fun. He is the reason for my success in this coursse. I would take a bullet for him.

A. Questions very helpful in preparing for tests.

A. Labs help a lot with the tests. Labs were more helpful than the actual class time.
