

Chemistry 4000/5001/7001 Fall 2010 Assignment 11

Due: Friday, Dec. 3, 4:00 p.m.

Marks: 16

Due to the small number of students in this class, there won't be a formal class evaluation. In this final assignment, I am asking you to give me advice for future offerings of the course. I will not look at these assignments until after I have graded your projects. The marks assigned to this assignment are a small reward for taking a little bit of time to do this for me. Full marks will be given for simply answering the questions. Full sentences are not necessarily required, and spelling and grammar will not be marked.

If you are concerned about my taking a peek at your assignment when you hand it in, you can give it to me in a sealed envelope, which I promise not to open until after I have graded the projects.

1. What was the best part of this course? [2 marks]
2. What is the one thing you would advise me to change about this course the next time it's offered? [2 marks]
3. Are there topics you would have liked to have seen more coverage of? No is an acceptable answer. [2 marks]
4. Are there topics you think I should drop? No is an acceptable answer. If you answer yes, please explain briefly why. [2 marks]
5. Are there things you think I should do in a different order? No is an acceptable answer. [2 marks]
6. Are there topics that weren't covered that you would have liked to have been included? No is an acceptable answer. [2 marks]
7. Comment on the project component of the course. Any comments, positive or negative, are appreciated. [4 marks]
